

WINEMAKERS

Variety: Shiraz Cabernet

Vintage: 2023

Region: Barossa Valley, South Australia

Alcohol: 14.5%

The story of Krondorf began in 1847, with a small group of Silesian settlers, family plots of grapevines, and shared values of love, faith and hope. Those little vineyards helped lay the foundation for what the Barossa is today. Our Winemakers range honours the Krondorf legacy with these fresh and modern wines that exemplify what the Barossa region has to offer. This modern shiraz is a fantastic introduction to a classic Barossa fruit-forward style, and delivers the hallmark brightness and freshness of the region.

Vineyard

Shiraz and Cabernet parcels were specially selected from a variety of vineyards across the Barossa region with individual parcels were harvested at optimal ripeness.

Winemaking

Individual parcels were fermented separately on skins in small format stainless steel fermenters for 7 days before pressing. Selected components were matured in new and seasoned French and American oak hogsheads for up to 12 months, when individual components were chosen to form the final blend

Colour

Deep red with purple hues.

Nose

This wine is a modern interpretation of the classic Shiraz/Cabernet blend. Bright and lifted red and dark berry fruit is supported by subtle oak and spice notes

Palate

The palate is full and even with persistent fruit length. Red cherry and dark fruit flavours combine to give a wine with great balance

Cellaring

Drinks well now, or will reward cellaring for the mid-term (36 - 48 months).

Vintage 2023

Barossa's 2023 vintage was significantly delayed, starting 3-4 weeks later than the 'new normal' of recent decades, with harvest extending into May for some sites. The region experienced one of its wettest springs on record, with 131% above-average rainfall and 53 rain days. Summer was mild, with no heatwaves and below-average rainfall, delaying veraison until February. Harvest began in mid-March for early reds, with sporadic rainfall events in March and April. While yields varied across the region, the final tally was slightly above-average. The season's challenges ultimately resulted in reds with intense, rich flavors.
